2. The target fixed by the Collector is only 240 (120 new and 120 old) wells for the whole district. This is also said to be liable to alteration. The number of applications so far received is only 113. It is stated that sinking of wells in the district will not be possible

(P.T.O.

om June to December, and that even wells sunk by the middle of
e will not be useful for the 1st crop. The entire work of
nstruction or repair should therefore be completed by the
inning of June. The first week of May is already over. The
rd, therefore, considers it doubtful whether any new work can
completed before June. There is also no prospect of any
ther applications being received. The district will not be
nefitted by the proposed extension of time till 31-7-1946. In
circumstances, the Board is of the opinion that it will be
rect to say that the present scheme will not apply to South
nara and that there is therefore no case for the appointment
any special staff. The applications so far received can be
t with by the regular staff. It is accordingly directing the
llector to disband all the special staff immediately.

3. In the circumstances reported by the Collector in his
st letter cited above, the Board considers that it will be
rect to say that the present scheme will not apply to South
nara. The Collector is therefore requested to disband at once
special staff appointed under the scheme. All the 113
lications so far received should be dealt with by the regular
ff expeditiously.

2. This office Ref:2904/46-B.5, dated 2-4-46.

This is a district where irrigated crops depend mainly on rains and where there is very little of well irrigation of food crops. Well water is practically not used at all for the first crop but it is used to some extent for II and III crops to supplement other sources - chiefly for the III crop which on the whole is not much. Moreover in this district well sinking is impossible from early June till end of December on account of rains and water in the Sub soil. Even if wells are sunk by mid June, there will be no use of them for the first crop. In view of these special local features the scheme cannot be applied to this district to the same extent as to the Eastern districts. It was for these reasons that only a skeleton staff was appointed at first. But now I find that 113 applications have been received so far and, as observed by the Board one officer will not be able to deal with them expeditiously. I therefore consider that the following staff is necessary in addition to the staff already appointed. In view of the urgency of the matter and in view of the Board's order quoted above I am appointing the staff in anticipation of sanction. I request that the staff may be sanctioned and my action approved.

(i) Special Deputy Tahsildars.	2
(ii) Special R.Is. of L.D.C's cadre. ..	3
(iii) Lower division Clerks to work one under each Special Deputy Tahsildar.	2
